### Description and purpose of change

Change of production site for the sensor casting process.

### Details of change

The supplier for the environmental protection casting process has been changed. No modifications have been made to the foam material, machinery, or production workflow. This change has no impact on product form, fit, function, performance, or reliability. Due to stock levels, there may be a longer changeover period.

### Reliability / Qualification summary

A risk assessment was conducted to evaluate the impact of the supplier change. Since the process, materials, and equipment remain unchanged, no additional risks to product quality, performance, or long-term reliability have been identified. Validation activities confirmed that the products fully meet all existing specifications and requirements.

### Alternate part (s)

n.a.
